CANDIDATE PROFILE

I'm a professional 26-year-old web developer from Albania. I have been an avid enthusiast of graphic design & web development for the last 5 years. Over the years I have learned a lot about web development & project management working with companies and clients directly to fulfill their ideas. I have worked on team projects where each member of the team can do their part but also on single projects where i had to do both frontend and backend.

EXPERIENCE

2022/04 - Now - Landmark Technologies - FrontEnd Developer

At Landmark i've been working as a VueJs frontend developer, working on different projects and tasks.

2022-04/2022 - Kesson Group - Full Stack JS Developer

At Kesson group i worked mostly as a full stack developer with nodejs and reactjs, while working on new features for their products.

2020-2022 - Pagus Group - JS Developer

At Pagus i've been working with an amazing team where my position is frontend developer. I handle the frontend with VueJs and the backend team provides Rest Api's with Laravel. We have been working on custom closed projects for our custom clients.

2019-2020 - Freelancer (Upwork) - Web Developer

After i left Evolve i started working as a remote developer for an American Company for nearly one year. There i started working on cms and also on Javascript frameworks like VueJS

2017-2019 - Evolve Studio - CMS Developer

My first job as a developer was at Evolve Studio and i started as a wordpress developer where i created websites using premade wordpress, modifying and customizing the themes and also there we created a custom theme from scratch for sale at Envato Market. At Evolve i had the opportunity to work with a lot of other cms like PrestaShop, Drupal and Magento 2 while creating various websites based on client requirements.
